5:30 - 6:30 pm Hospitality // Live Auction starts at 6:30 pm

Sale Headquarters @ Sheraton Hotel, Madison // 608.251.2300

Welcome to the International Opportunity Sale!

It is with great pleasure we welcome you to the second edition of the International Opportunity Sale at the largest dairy gathering in the world. We have assembled an outstanding lineup with some of the world's most unparalleled genetics to ever be offered.

This lineup features some of the highest GTPI and NM\$ heifers in the world along with heifers combining breed leading Type and UDC. Opportunities of this genetic caliber are a rarity to buy. These are the kind of consignments that will be breed leaders and create the next generation, propelling your genetics to the next level.

We strived to select a unique set of cattle from maternal lines that consistently know how to make the great ones! These are the kind of animals that will bring international appeal and pay dividends for years to come.

We thank all of the consignors to the International Opportunity Sale for their highest quality and appreciate their trust in us to market their best.

Be prepared to bid fast and bid last on Thursday, October 4th, on one of the best groups of cattle ever assembled and most importantly, buy with confidence!

Team GenoSource

ARE YOU WAITING FOR **GENOMIC TEST RESULTS?**

Let's get you up to speed.

When it comes to raising heifers, we know that genomic test processing time ends up costing you money. That's why we've made it our mission to be the fastest service provider on the market, and back it up with a money-back guarantee. It's pretty simple: collect your samples with Allflex® Tissue Sample Units (TSUs), send us an electronic file containing all pertinent animal ID information, and include our submission form in the sample shipment. **If we don't get your results back to you in 17 days, your results are free.**

Visit us at booth #3613 at the 2018 World Dairy Expo!

- **SCR HEATIME® Collar**
Activity and Rumination Monitoring
- **SCR eSense Ear Tag**
Activity and Rumination Monitoring
- **CUBEX® QBud Station**
Wireless/Digital Inventory Management

— The Better —

ENGINEERED TEAT SEALANT.

SHORT PLUNGER STROKE

A quick half-inch plunger stroke is all it takes to administer a full 4-gram dose per teat.

VISIBLE BLUE PASTE

The first sealant to feature a paste that's easy to distinguish from milk during removal.

COMPACT & COMFORTABLE

The same amount of product in a smaller tube with a larger thumb pad and widened wings.

EASY PULL-OFF CAP

No need to twist or turn. Just pull the cap straight off and insert the short tip.

Now you can protect your dry cows with a better engineered teat sealant. Lockout™ simulates the keratin plug to seal the teat against bacteria by providing a sterile, antibiotic-free barrier between the udder and its environment. Unlike existing teat sealants, only LOCKOUT provides more comfort, ease and efficiency, thanks to its compact size, ergonomic design and blue paste you can actually see.

Defend your dairy at LockoutTeatSealant.com.

lockout™

HOLSTEIN ASSOCIATION TERMS AND CONDITIONS FOR PUBLIC SALES

EFFECTIVE MARCH 2, 1996 - Amended October 1, 1997, June 28, 2000, June 23, 2002, March 26, 2010 and March 24, 2016

TERMS: The terms of the sale are cash unless arrangements are made prior to the sale or are printed in the sale catalog. Only when the above conditions are met will the buyer be entitled to the warranties listed below. In no case will animals be released unless settlement is made with the clerk of the sale.

RESPONSIBILITY: The seller, buyer, and manager of this sale are obligated to comply with the provisions of these terms and conditions.

EXPORT SALES: Buyer assumes all responsibility for health tests required by the importing country.

BIDS: The highest bidder is the buyer. Bidding parties or their agents are responsible for all bids placed. Every animal or lot presented for bidding is pledged to absolute sale. In case of dispute, the animal or lot will again be put up for advance bids, and if there is no advance bid, the animal or lot will be sold to the person the auctioneer accepted the last bid from. In case two or more claim the bid, the auctioneer will indicate the party whose bid he recognized. Other claimants will be given an opportunity to increase the bid and bidding will be restricted to the two or more claimants.

BY-BIDDING: Bidding directly or indirectly by the sole owner of any animal or lot is prohibited unless the intention to bid is disclosed specific to each animal in the catalog and announced when the animal enters the ring. Bidding by any member of a partnership, syndicate, or other entity having an ownership interest in an animal or lot is permitted.

TRANSFER OF OWNERSHIP: For all Registered HolsteinsSM, the transfer of ownership to the buyer will be recorded on the records of Holstein Association USA and a certificate of registration showing that transfer of ownership will be provided to the buyer free of charge. For embryos, the transfer of ownership to the buyer will be recorded on the records of Holstein Association USA free of charge to the buyer.

RISK: All animals located at sale site are at the purchaser's risk as soon as struck off, but will be cared for free of charge for a maximum of 24 hours following the end of the sale.

WARRANTIES:

- 1) Each consignor warrants clear title to the animal or lot, and the right to sell same.
- 2) To the best of the seller's knowledge, each animal is sound and healthy in every respect and embryos have been recovered, processed, frozen, transferred and graded in keeping with IETS recommendations unless otherwise noted in the catalog or announced from the auction stand. Every precaution will be taken to represent the physical condition of each lot exactly as is known. Examination of all purchases should be made immediately after the purchase and before the close of the sale, and if found not to be as represented, complaint must be reported to the sale management before the close of the sale. In the event no complaint is filed, it is understood that the buyer assumes full ownership in the case of animals at sale site together with all risks, after which no representations of the seller can be challenged through the sale management. Heifers that never calved are in no way guaranteed as to the condition of their udders following calving. The sex of an embryo or fetus is in no way guaranteed.

3) Breeding Warranty

The seller guarantees all animals to be breeders, but not beyond the purchase price, with the following understanding:

- a. Males - Should any bull after reaching the age of fourteen months fail to prove a breeder after being used for two months on cows or heifers known to be breeders, the matter shall be reported in writing to the seller within three months of the sale date. The report must include the animal's examination record, a written statement of treatment, and a statement of the animals' inability to breed,

by a licensed veterinarian. The seller has the option to refund the purchase price or make other settlement that is satisfactory to the buyer. In either case the rights of ownership of the animal return to the seller. The seller makes no guarantees with respect to the ability to freeze semen.

- b. Females - All females are guaranteed to be breeders with the exception of:

1. Cows over 7 years of age when sold;
2. Cows and/or heifers carrying a pregnancy that is the result of an embryo transfer.

Report of a non-breeder must occur in writing within 3 months of the date of sale or before the animal reaches 21 months of age and must be submitted to the seller. The report must include the animal's examination record, a written statement of treatment, and a statement of the animals' inability to breed, by a licensed veterinarian. The seller has the option to refund the purchase price or make other settlement that is satisfactory to the buyer. In either case the rights of ownership of the animal return to the seller.

Females bred when sold and pronounced in calf are presumed to be pregnant but pregnancy is not guaranteed unless so announced. The seller makes no warranty that pregnant cows will deliver calves or that they will carry calves full term.

- c. If, after the sale, embryos or oocytes are recovered from a female or an attempt is made to superovulate her, this negates the breeding warranty unless there is a separate written agreement between buyer and seller.

SHIPPING: Assistance will be given in arranging shipping of the animals after the sale. All costs, risks and responsibility will be borne by the purchaser.

PEDIGREE INFORMATION: All production, classification, type and production summaries are current. Only information recorded on Holstein Association USA pedigrees is used. Any production or classification records supplied by the seller or consignor will be properly identified as provided by owner. Records in progress are identified as such.

GENOMIC INFORMATION: If genomic information on the animal or embryo is available, it must be dated and disclosed at or before the time of sale.

EMBRYO TRANSFER: All registered animals that have resulted from embryo transfer are identified with one of the following suffixes in the name: ET, ETS (from split embryo), or ETN (from nuclear transfer). If unregistered, the appropriate technology will be identified. Donor dams are identified.

HEALTH WARRANTY: The seller will provide an official health certificate to the buyer for each animal showing the results of all health tests made in preparation for this sale as required by the state where the cattle reside. Other health tests completed for this sale will be disclosed.

ERRORS: The material in this catalog has been carefully edited. If any errors or omissions are discovered, they will be announced. Such announcements take precedence over that printed in this catalog.

ACCIDENT: The sale management, the consignors, and the owner of the grounds will not be responsible in any case for the condition of the grounds or the behavior of the animals and disclaim any liability in the event of personal accident or property loss.

LIMITATIONS OF WARRANTIES: Warranties contained herein, unless terminated earlier, will cease upon the resale of an animal.

LIVE INTERNET BIDDING AT www.cowbuyer.com

- View/bid online in Real Time
- Registration is required. Please register at least one (1) hour prior to sale time at www.cowbuyer.com
- High Speed Internet is required. Slower speed will not permit you to bid and keep pace in real time.
- Terms: Purchasing online constitutes a legal contract and promise for payment of purchases. All purchases must be paid within ten (10) days of sale date and prior to load out or delivery of cattle purchased.
- Cowbuyer.com is a service provider and is not responsible for the activity or inactivity of any technology, internet connection at the sale site or connection and technology of the bidders.
- For iPad, iPhone or android users be sure to download the COWBUYER App to utilize mobile bidding.
