PROGRAM

- July 11th: Fairgrounds open to cattle arrival
- July 12th- 12 noon—All cattle must have arrived on grounds and be in place
12 noon—Showmanship Sign Up
1pm- Central NY 4-H Judging Contest
6pm- Showmanship
Ice Cream Social following Showmanship, Sponsored by Stewart's Shop
- July 13th: 9am Holstein Show commences with Spring Heifer Calves
(Cow start time TBD by Show Committee with mutual agreement from majority of exhibitors)

FOOD PROVIDED BY STORM FAMILY 4-H GROUP. BREAKFAST STARTING AT 7AM AND LUNCH THROUGH THE AFTERNOON. DINNER IS ON YOUR OWN.

ALL EXHIBITORS ARE RESPONSIBLE FOR CLEANING OWN STALLS FOLLOWING CONCLUSION OF SHOW

- All animals must be owned by New York State individuals; All junior animals must abide by National Junior Holstein rules and be owned by the junior on or prior to June 1, 2019.
- Juniors will be pulled forward in each class for Junior Recognition.
- A "Total Performance Award" will be given to the top 3-year-old and over cow in the show based on:
 - 50 points on placing - 1st 50, 2nd 47, 3rd 44, etc.
 - 50 points on production - 1st 50, 2nd 48, 3rd 46, etc. based on 3.5% ECM
 - Add in their classification score.
 - Equation will be: Placing points+ Production points + Classification score.
 - If total points are tied, then actual pounds of fat will be used as a tiebreaker. If still tied, the judge will be asked to break the tie.
- CNY Holstein Show will abide by the PDCA Rules and Regulations for Show Ring Ethics.

Premier Awards will be based on the following point scale:

Placings	1 st	2 nd	3 rd	4 th	5 th	6 th	7 th	8 th	9 th	10 th
Senior Females	20	18	16	14	12	10	8	6	4	2
Junior Females, & Dry Cows	10	9	8	7	6	5	4	3	2	1

Kevin Ziemba, Committee Member

THE PUREBRED DAIRY CATTLE ASSOCIATION SHOW RING CODE OF ETHICS

(Adopted by PDCA in March 1969; Revised March 1971, February 1977, February 1981, February 1986, February 1988, February 1989, February 1992, February 1993, November 1995, April 2002, April 2004, and May 2015.)

The showing of registered dairy cattle stimulates and sustains interest in the breeding of dairy cattle. It is also an important part of the promotion, merchandising, and breeding program of many breeders. For these reasons, the Purebred Cattle Association (PDCA) believes that it is in the best interest of all breeders of registered dairy cattle to maintain a reputation of integrity in dairy cattle shows and to present a wholesome and progressive image of dairy cattle in the show ring.

PDCA endorses this Show Ring Code of Ethics for all dairy breed shows and pledges its full cooperative support for its enforcement to show management, show judges, and the national breed associations.

The application of this Code of Ethics provides for absolute responsibility for an animal's condition by an owner, exhibitor, fitter, or participant whether or not he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this Code of Ethics. Dairy cattle exhibitors shall at all times deport themselves with honesty and good sportsmanship.

It is recognized that there are certain practices in the proper care and management of dairy cattle that are necessary in the course of moving dairy cattle to and between shows that are advisable to keep them in a sound, healthy state so they might be presented in the show ring in a natural, normal condition. At all times, exhibition livestock shall be treated in a humane manner and in accordance with dairy quality assurance practices so as to protect the health, safety, and welfare of the livestock and the consuming public. No person shall present for exhibition or exhibit an animal which he or she knows, or has reason to suspect, is affected with or has been exposed to a dangerously contagious or infectious disease, or illegal or non-approved use of drugs, medication and/or prohibited substance, or residue. The position of the Purebred Dairy Cattle Association is that all animals presented for exhibition shall be in their natural conformation and structure, free of any alteration or modification by injection or internal or external administration of any substance or by any involvement in unethical fitting.

Grooming and Preparation

Dairy cattle exhibitions are conducted under standards for evaluating conformation established by the PDCA Unified Score Card (2009), with specific breed characteristics taken into consideration by the show judge. In this connection, animals will be groomed and prepared for the judge's evaluation in order to display the animal's natural contour, conformation, performance, and mobility. Specifically:

1. Changing the natural color of the animal is prohibited (effective 6/1/15). However, external applications of cosmetics that affect only appearance may be used, including by way of example hoof polishes and false switches.
2. The maximum allowable length of naturally growing hair anywhere on the topline is not to exceed 1.5 inches. Exhibitors will be required to comply with this rule before the animal is allowed to enter the ring. **Exhibitors will be permitted only ONE MEASUREMENT. Hair measuring stations will be located near the Large Arena and in the Equine Arena.**
3. Addition of foreign objects, including but not limited to hair or hair substitutes, cloth or fiber, to change the natural contour or appearance of the animal's body is prohibited.
4. Externally sealing the teat end with a preparation that does not harm the animal's skin is permissible. Natural teat placement will be given preference over artificially positioned teats.

Violations: False, Deceptive or Unacceptable Practices

These practices are violations of the Code of Ethics and will be reported to show management and may be reported to the respective national breed associations:

1. Misrepresenting the age and/or milking status of the animal for the class in which it is shown.
2. Treating the animal, particularly the udder, internally or externally, with an irritant or counter-irritant, using a device to artificially create or enhance the udder crease, using other substances as detected by testing that causes changes in the udder to artificially improve the conformation. Plugging of teat canal with foreign substances.
3. Surgical or unethical insertion of any matter under the skin or into body cavities, performed to change the natural contour or appearance of the animal's body (e.g., administration of fluid via a stomach tube or other similar apparatus to fill the rumen), though not to preclude practices required or involved in normal management.
4. Criticizing or interfering with the judge, show management, or other exhibitors while in the show ring or other conduct detrimental to the breed or the show.
5. Challenging, threatening, or interfering with an ethics committee appointed by show management to monitor the animals on exhibit on the show grounds.

Exhibitor Responsibility

The act of entering an animal in a livestock show is the giving of consent by the owner, exhibitor, fitter, and/or absolutely responsible person (hereinafter referred to as "Exhibitor") for show management to obtain any specimens of urine, saliva, blood, milk, or other substances from the animal to be used in testing. Materials may also be collected by ultrasound and photographic methods and by direct examination of animal.

The act of entering an animal is the giving of consent by the owner, exhibitor, fitter, and/or absolutely responsible person (the "Exhibitor") to have disciplinary action for violation of this Show Ring Code of Ethics taken by show management, the state in which the show occurs, and/or the national dairy breed association without recourse.

Show Ethics Committee

Each show should have an Ethics Committee. The make-up of this committee should include official breed representatives, representative(s) of show management (e.g., dairy cattle show superintendent, General Manager), the official show veterinarian, and Extension representative.

The Ethics Committee will be responsible for monitoring violations of the Show Ring Code of Ethics. The Ethics Committee will investigate the report of any violation and determine the accuracy of the allegation. The Ethics Committee will have the authority to inspect animals and related material to determine if violations have occurred.

Violations: Reporting and Investigation

Complaints of alleged violations can be reported to the breed superintendent, the show superintendent, show management, and/or the Ethics Committee.

Before An Animal is Shown

If the Ethics Committee suspects that a violation of the Show Ring Code of Ethics will occur if the animal is shown, and that violation is reasonably well established before the animal is shown, the Ethics Committee will submit a report to show management.

1. If, at the Exhibitor's discretion, the animal in question is not shown, no violation will have occurred.
2. If the Exhibitor wishes to challenge that a violation occurred, he/she/they will have the opportunity to appeal to the Ethics Committee. If its decision is not changed, the Exhibitor will be denied opportunity to exhibit the animal in question.

During and After An Animal is Shown

All animals are subject to examination during judging. The judge and Ethics Committee are instructed to examine the top five (5) animals in each class closely for violations of the Show Ring Code of Ethics. When a violation may have occurred, a milkout may be called for. This call may be by breed association rule, or by request of an authorized representative of the national breed association, the judge, the Ethics Committee, or show management.

If an animal is exhibited and a violation of the Show Ring Code of Ethics is subsequently suspected, investigated, and determined to have occurred, the violation will be reported to the Ethics Committee and show management for action. The Exhibitor will be notified of the violation and the supporting evidence and invited to defend or explain the allegations.

Violations are subject to the disciplinary provisions of show management, the state in which the show occurs, and the national dairy breed association. Sanctions may include any one or combination of the following:

- Forfeiture or return of awards, prizes, premiums, or proceeds
- Written letter of reprimand to the owner, exhibitor, fitter, and/or absolutely responsible person (the "Exhibitor")
- Disqualification of the exhibition livestock from an exhibition
- Disqualification of the Exhibitor from the show
- Publication of offense

Disqualification may include any or all shows and classes and may be for any number of years.

About PDCA

The Purebred Dairy Cattle Association, Inc. is a federation of the national dairy breed registry associations serving breeders and owners of Ayrshire, Brown Swiss, Guernsey, Holsteins, Jersey, Milking Shorthorn, and Red and White dairy cattle. PDCA and its member organizations promote the added value and profitability registered dairy cattle offer all dairy business owners.

Each Junior Showman gets 1 bag of Goldstar Calf Grain.

Each Class winner will receive a can of Fight Bac

The 2019 Judge

Steve Fraser

Fergus, ON Canada

519.820.2728

fraeland@golden.net

Steve and his wife Jackie, own and operate Fraeland Farms in Fergus, Ontario. Fraeland is a master Breeder herd that milks approximately 95 cows. Steve has had many achievements over the years including the honors of being named Champion Showperson and exhibiting the champion calf at the Hays Classic, which is now the Canadian 4-H Dairy Classic at the Royal Winter Agricultural Fair. Additionally, Steve has had a very successful judging career, officiating at over 40 4-H shows, multiple county shows and Breeders Cups throughout Canada. Steve has also judged internationally at the International Dairy Week Show in Australia, as well as showmanship at the World Dairy Expo, in Madison, WI.

Top five most significant recent judging experiences:

- 2004 International Dairy Week Brown Swiss Show
- 2014 World Dairy Expo Senior Showmanship
- 2015 East Central Ontario 4H Championship Show
- 2018 Eastern Ontario Invitational Show
- 2017 Russell-Carlton County Show

Besides judging type conformation classes, this judge also enjoys:

- Youth Shows
- Showmanship

SALUTE TO NEW YORK DAIRY FARMERS

Farm Credit East salutes the farm families
who bring milk and other wholesome dairy products
to the tables of millions of Americans every single day.

And when you need financing, payroll assistance
or other financial service,

Farm Credit East is ready to help
as we have for more than 100 years.

FARM CREDIT EAST

A WELCOME SENSE OF PREDICTABILITY IN A WORLD OF UNKNOWN.

A NEW WORLD DEMANDS NEW HOLLAND.

Confidence is rolled into every bale with a Roll-Belt™ round baler thanks to over 120 years of pioneering hay and forage equipment. No matter your crop, weather or storage conditions, bale density can be conveniently adjusted from the tractor with the in-cab density control system to maximize the crop value of each bale. That kind of flexibility, consistency and productivity is why no one bales more hay every day. Learn more at EquippedForANewWorld.com

PROVING YET AGAIN MAN'S ABILITY TO ADAPT TO ANY ENVIRONMENT.

A NEW WORLD DEMANDS NEW HOLLAND.

Your farm is an ever-changing landscape filled with ever-changing demands. Count on the versatility of a 200 Series Skid Steer Loader to get any job done. An easy hydraulic hookup lets you quickly change attachments. The Super Boom® provides maximum reach when lifting, stacking or loading hay. And one of the widest cabs available makes getting in and out safer than ever. Learn more at EquippedForANewWorld.com

THE LINER WITH

TURBO ACTION

The Turbo 450TL liner hugs teats just right preventing excess stress on the teat for a healthier overall udder and happier cow.

- **Round shoulder** – Low mouthpiece vacuum - less mouthpiece congestion
- **Transitional shape** – “Hugs” the teat rather than pinching the teat for comfort, results in less squawks and unit kick-offs
- **Operates at wider range of vacuum**– Allows dairies to achieve conservative and progressive goals for milk harvest
- **Specially formulated rubber**– Increases the overall life of the liner to 2,400 milkings
- **Tapered barrel** – For optimal teat massage and faster milk-out which provides more throughput

Good Luck to All Exhibitors

Why Showcase Selections?

Showcase Selections is so much more than just creating pretty cows for the show ring. It's about creating memories and it starts with a kid and a calf. For many of us in the dairy industry, some of our earliest memories are about that first show calf. The excitement, the work, the dedication, the anticipation! These are memories that last a lifetime. We have the Showcase Selections program because win, lose, or draw, we hope to be part of that experience for the next kid and their calf.

WHERE WINNING BEGINS!

Select Sires has provided balanced genetics for decades, proving that Type with production never goes out of style. Our Showcase Selections™ sires have been a mainstay in many Type-focused breeding programs. Talk to your Premier Select Sires representative for a complete listing of our Showcase Selections sires.

™Showcase Selections is a trademark of Select Sires Inc. Photo by The Bullvine.

TRUSTED ON THE BEST COWS...

Fight Bac is used on the most valuable cows in the world - walk the barns at any dairy show, including World Dairy Expo, and ask why more than 90% of exhibitors use Fight Bac on their best cows. Fight Bac is research proven to control mastitis better than teat dips. It's also convenient and easy to use, and priced below most premium teat dips.

Fight Bac®

The smart way to disinfect teats.

1-800-656-6007 | www.FightBac.com

PROUD SPONSOR OF THE CENTRAL NEW YORK HOLSTEIN SHOW.

IF YOU HAVE COWS, YOU NEED...

- Fight Bac is the best disinfectant for: teats post milking, newborn calf navels, cuts and wounds, injection sites and udder rot (when nothing else works).

EXCEPTIONAL FINANCING OFFERS AVAILABLE*

Proactive protocols. Performance peace-of-mind.

Proactive and supportive protocols are increasingly important to prevention and management of mastitis in the dairy herd. The payback for optimal udder management is seen in parlor throughput, performance of the herd, labor efficiency and pounds of milk shipped — not to mention milk quality and peace-of-mind. Maintaining consistently high quality milk offers some premiums and helps assure getting and retaining a milk market.

Working with the herd vet, culturing and identifying issues, producers can develop systems and protocols that — together — strengthen herd immunity and reduce disease challenge. Clean, comfortable cows do better with a low-stress start to lactation at calving. When problems do arise, early detection is essential.

Mark Spadgenske, milking 300 cows near Menasha, Minn. “We started spraying all fresh udders, across the board, 2x/day for 3 to 4 days,” he explains. “Within 2 months, we saw counts come down, and by 6 months, our counts were down by over 100,000. Of the products we tried, this one did the job, and we are still going strong with it 2 years later.”

Mark notes that removing the swelling quickly at the start of lactation improved comfort and milkouts: “We are receiving quality premiums we never saw before and better performance.”

“One thing we did was to add *Udder Comfort* to our fresh cow routine in 2017. Now SCC runs consistently below 200,000. Before that, we were over 300,000,” says

Bob Keefer at Hard Earned Acres, Shippensburg, Pa. milks 700 cows. He also took the *Udder Comfort* challenge in 2017, applying it to all fresh cows 2x/ day for 5 to 7 days.

“We saw results within the first 2 months, and after 5 months, I was impressed. We try to do a lot of things right here. Our counts weren’t bad. We were below 200,000 before adding this routine to our fresh cow care,” says Bob.

“Starting lactations with *Udder Comfort* — it’s like a missing piece. Our SCC has never been lower, down 70,000 and now averaging 100 to 120,000. Udder irritation is gone.

Production has come up a bit, and we are not seeing mastitis in our fresh cows. This all helps our milk quality and our volume, with virtually no discarded milk,” Bob explains.
